SETTING UP PAX S300 WITH PUREJOIN

- Press Menu or "FUNC" and "1" at the same time
- Enter your password (default password is the current date in MMDDYYYYY format)
- Arrow Down Once, press "2. Communication"
- Enter your password again
- Arrow Down Twice, press "3. LAN Parameters"
- Press "2. IP Address"
- This **IP Address** needs to be entered at Purejoin POS Setting
- If IP Address is 192.168.001.023, you need to enter it like 192.168.1.23 (discard 0 prefix)
- Go back to the home screen by using the back button on the screen several times.
- Go to Purejoin POS > Menu > Setting > Credit Card Process
- Select Online
- Select POSLink – PAX S300
- Enter the **IP Address and Port # 80**
- Save
- Restart POS.
