1. BOXaPOS HUS-Base for Register iPad.
2. BOXaPOS HUS Tablet Holder for IRD iPad Customer Rewards.

BOXAPOS HUS-BASE IPAD STAND SETUP

The tablet stand is suitable for modern tablets running iOS, Android or Windows. It supports landscape or portrait mode.

BOXaPOS HUS-Base with Small Printer Compartment for Register iPad.

Register iPad Stand comes with 2 main parts of HUS (a Base Printer Compartment and a Tablet Holder), a small screw set, and a square yellow sticker.

To connect the Base and the Tablet Holder:

1. Using the sticker (this option will be permanent and unable to remove afterwards)
 - Tilt the displace holder to preferred angle > Remove the yellow paper of the sticker > Place and stick the sticker on top of the Base > Place the Tablet Holder on top of the sticker > Press down to prevent any space or bubbles.

2. Using the screw set

- Use 4 thin black screws in the screw set > Place the screws accordingly to the 4 corner holes > Use the small wrench and hex key to secure in place.

To place Printer inside the Printer Compartment:

- Place the iPad Stand on top of the Cash Drawer > Connect the Printer's LAN cable and Power cable to the Printer > Put the Printer inside the Printer Compartment > Run the cables through the small hole on the back of the Printer Compartment > Connect the cables to the Cash Drawer.

To place iPad on top of the Tablet Holder:

- Remove the yellow paper of the sticker > Place and stick iPad in the middle of the Tablet Holder > Press down to prevent any space or bubbles.

BOXaPOS HUS Tablet Holder for IRD iPad Customer Rewards

IRD iPad Customer Rewards comes with the Tablet Holder.

To place iPad on top of the Tablet Holder:

- Tilt the displace holder to preferred angle > Remove the yellow paper of the sticker > Place and stick iPad in the middle of the Tablet Holder > Press down to prevent any space or bubbles.

To place Tablet Holder on counter for customers:

The screw set is included in the box.

- Place the screws accordingly to the 4 corner holes > Use screws to mount securely to a horizontal counter surface.
