

## How to Change Protocol Type on PAX A35?

To change the protocol type on a PAX A35 to TCP/IP, you can do the following:

1. Open the payment app (TSYS Sierra/Vantiv).
2. For the old version, select the square icon in the top right to access the main menu. For the new version, tap the four corners in the following order: top left, top right, bottom right, and bottom left.
3. Enter the password (default pw is current date in MMDDYYYY format).
4. Select 'ECR Comm. Type'.
5. Select 'Protocol Type'.
6. Select 'TCP/IP'.
