

## How to Change Protocol Type on PAX S300?

To change the protocol type on a PAX S300, you can do the following:

1. Press and hold the 'F' and '1' keys to access the main menu.
2. Enter the password (default pw is current date in MMDDYYYY format).
3. Arrow Down once and select 'Communication'.
4. Enter the password again (default pw is current date in MMDDYYYY format).
5. Arrow Down twice and select 'LAN Parameters'.
6. Select 'ECR Comm. Type'.
7. Select 'Ethernet'.
8. Press the green button to go to the Communication Protocol page.
9. Select 'TCP/IP' or 'HTTP GET' as the Communication Protocol.
